Postal address: Suite 313, 585 Little Collins St, Melbourne 3000

### **Policy: OBA Webinars Offered to Members**

This policy was approved by the board of directors on 8 January 2021

OBA Ltd will host webinars throughout each year approximately once a month, available free to our members. A board member will be the Coordinator, arranging the roster of instructors to present once per cycle on a topic of their choice (approved by the board).

The webinars will be generally be conducted by OBA's registered instructor members but other presenters may be approved from time to time by the OBA board of directors.

Webinars will be offered via Zoom or other online platforms and the video recordings will be made accessible in the members' area of the website (at time of writing, the videos will be stored in a private YouTube channel and accessed via the OBA website).

When the webinars are conducted by registered Ortho-Bionomy instructors they will be counted for training credit as Consultations (1 webinar = 1 unit of credit) in OBA's training programs ONLY when the student attends the webinar in person at the time of the live presentation. In this case the student will receive a certificate of attendance after the webinar. Up to 3 webinars can be counted for training credit in each of the practitioner and advanced practitioner training programs. Up to 8 webinars per year can be counted in the annual Continuing Education units required for membership renewal.

Non-OBA members who wish to attend the webinars must first apply for affiliate membership at a minimum.
